A-432-71-I-M (SM)**

**Departmental  
Findings of Fact and Order  
Air Emission License  
Amendment #2**

After review of the air emissions license amendment application, staff investigation reports and other documents in the applicant's file in the Bureau of Air Quality, pursuant to 38 M.R.S.A., Section 344 and Section 590, the Department finds the following facts:

**I. REGISTRATION**

**A. Introduction**

1. Global Companies, LLC (Global) of South Portland, Maine was issued Air Emission License A-432-71-E-R on December 6, 2002, permitting the operation of emission sources associated with their bulk petroleum storage and distribution facility. The license was subsequently amended on December 31, 2002 (A-432-71-H-M).
2. Global has requested a minor revision to their license in order to clarify the frequency of compliance testing for the vapor combustion unit.

**B. Revision Description**

Global has installed, and operates, a John Zink vapor combustion unit (VCU). Air Emission License A-432-71-E-R Condition (18)(G) required Global to conduct a VOC compliance test for the VCU prior to June 15, 2003. No reference was made to future compliance testing in the permit. Global complied with this requirement. In addition, the Department requested additional compliance testing in June 2004. Both tests showed emissions significantly below the 10 mg/l license limit.

Based on their past compliance demonstrations, Global has requested that the testing frequency in the license be revised to require compliance testing every fifth year.

**C. Application Classification**

This amendment will not increase emissions of any pollutant. Therefore, this modification is determined to be a minor revision and has been processed as such.

Findings of Fact and Order  
Air Emission License  
Amendment #2

**ORDER**

The Department hereby grants Air Emission License Minor Revision A-432-71-I-M, subject to the conditions found in Air Emission License A-432-71-E-R, in the following amendments: A-432-71-H-M, and in addition to the following conditions:

**The following are new Conditions:**

- (24) Global shall conduct a VOC compliance test for the VCU prior to June 15, 2009 and every fifth year thereafter. A report containing test results shall be submitted to the Department within 30 days of testing according to the requirements of the Department's stack test protocol. [MEDEP Chapter 115, BPT]

DONE AND DATED IN AUGUSTA, MAINE THIS                      DAY OF                      2004.
